

Paris - La Défense, July 20th, 2017

At this point of the procedure with the French Competition Authority, Tarkett has decided to book a provision of an amount of 150 million euros in its financial accounts as of June 30, 2017. This procedure follows an inquiry initiated in March 2013 towards several resilient flooring manufacturers on the French market. This inquiry relates to former practices that began back in 1990, for which the company has received a statement of objections. Tarkett has been fully cooperating with the Authority since the beginning of the inquiry. The final amount of the penalty will only be known at the end of the procedure.

This will lead Tarkett to report a negative net income over the first-half 2017 and over the full year 2017, but this will not lead to any change in the financial targets of the 2020 strategic plan. This non-recurring provision will be treated as an adjustment to EBITDA and will not impact the indicator "Adjusted EBITDA". Considering Tarkett's solid balance sheet, this amount will not impact the ability of the Group to meet its financial covenants.

Tarkett reiterates that abiding by competition law is one of the Group's ethical values. To this end, Tarkett has implemented a compliance program to ensure the strict respect of laws and applicable competition regulations.
