INTERNAL REGULATIONS OF THE SUPERVISORY BOARD

The members of the Supervisory Board of the company Tarkett (hereinafter “the Company”) have decided to adhere to the following operating rules, which shall constitute the Internal Regulations of the Supervisory Board.

These internal regulations are intended to specify the operating procedures of the Supervisory Board of the Company, as a complement to the legal and regulatory provisions and the articles of association of the Company.

They fall within the framework of the market recommendations, which aim to guarantee observance of the fundamental principles of corporate governance and notably those cited in the AFEP/MEDEF Consolidated Code. They may be amended at any time by simple decision of the Supervisory Board.

These internal regulations were approved by the Company’s Supervisory Board at its meeting of 17 September 2013, and entered into effect on this latter date following due completion on the admission of the Company’s shares to trading on Euronext Paris regulated market.

Various amendments (regarding name and Internal Regulations of the Committees of the Supervisory Board) were brought during the meeting of the Supervisory Board dated February 8, 2018

Article 1 – Composition of the Supervisory Board

1.1 The Board shall ensure that the proportion of independent members is, as far as possible, at least one third of the Supervisory Board, and that the Audit, Risks and Compliance Committee and the Nominations, Compensation and Governance Committee each include at least two independent members, it being recalled that the qualification of independent member does not include a value judgement on the capacities and competence of Board members.

On the occasion of each renewal or appointment of a Board member and at least once a year before the publication of the Company’s annual report, the Board shall assess the independence of each of its members (or applicants). During this assessment, the Board, pursuant to the opinion of the Nominations, compensations and governance Committee, shall examine the qualification of each of its members (or applicants) on a case-by-case basis, in view of the criteria cited above, the particular circumstances and the situation of the interested party with regard to the Company. The conclusions of this examination shall be brought to the attention of the shareholders in the report relative to corporate governance and, as appropriate, to the general meeting on election of the members of the Supervisory Board.

The assessment of the independence of each member of the Supervisory Board shall notably take account of the following criteria:

- (i) he/she shall not be an employee or representative of the Company, employee or member of the administrative or supervisory board of any company which consolidates it, or of a company which it consolidates and shall not have been during the previous five years;
- (ii) he/she shall not be the representative of a company for which the Company directly or indirectly holds a mandate as member of the board of directors or supervisory board or in which an employee designated as such or representative of the Company (currently or who has been for less than five years) holds a mandate as member of the Supervisory Board;
- (iii) shall not be a client, supplier, investment banker or significant commercial banker or consultant of the Company, or of its Group or for which the Company or its Group represents a significant part of its activity (or be directly or indirectly linked to such a person);
- (iv) shall not have a close family tie to a representative of the Company;
- (v) shall not have been a Statutory Auditor of the Company during the last five years;
- (vi) shall not have been a member of the Supervisory Board of the Company for more than twelve years on the date to which its mandate in progress has been granted to it.

For the members of the Board holding ten per cent or more of the share capital or voting rights of the Company, or representing a legal person holding such a stake, the Board, on the report of the Nominations, compensations and governance Committee, shall pronounce on the qualification of independent party, notably taking into account the composition of the share capital of the Company and the existence of a potential conflict of interest.

The Board may decide that a Board member, while fulfilling the above criteria, shall not be qualified as an independent in view of its particular situation or that of the Company, in view of its shareholding structure or for any other reason. Conversely, the Board may consider that a member of the Board who does not fulfil the above criteria is nevertheless independent.

Each member qualified as independent shall inform the Chairman, as soon as it becomes aware of the same, of any change in his/her personal situation with regard to the same criteria.

1.2 The duration of the duties of members of the Board shall be four years, ending at the end of the ordinary general meeting which has ruled on the accounts for the past financial year and held during the year in which mandate of the said member expires. Part of the members of the Supervisory Board shall be renewed each year, in order to ensure a staggered renewal of all of the Supervisory Board over a four-year period. For this purpose, the general meeting may provide, on designation of certain members of the Supervisory Board appointed prior to the date on which the shares of the Company are admitted to trading on a regulated market, that the duration of their mandate shall be less than four years, in order to permit a staggered renewal of the mandates of the members of the Supervisory Board.

In the event of vacancy due to death, age limit or resignation, the Board shall, as appropriate, make appointments in a provisional capacity under the conditions provided by law. The

member of the Board appointed as a replacement for another whose mandate has not expired shall only remain in office for the remaining period of the mandate of his/her predecessor.

1.3 The Board shall elect from among its members who are natural persons, a Chairman and a Deputy Chairman, for a duration which may not exceed that of their mandate as member of the Board.

In accordance with the legal provisions, the Chairman of the Supervisory Board's main task is to organize the Supervisory Board's works enabling it to exercise properly the control the Company's management. The Chairman of the Supervisory Board is the privileged interlocutor to respond to any requests for interviews from a shareholder or an investor addressed to the Supervisory Board.

The Vice- Chairman presides, in case of impediment of the president, the Supervisory Board's meeting.

1.4 The Board may decide to establish permanent or temporary internal committees, intended to facilitate the effective functioning of the Board and to contribute effectively to the preparation of its decisions.

These committees shall be assigned the task, at the Board's responsibility, of studying the issues which the Board or its Chairman submits for an opinion to their examination in order to prepare the work and decisions of the Board. The composition, attributions and procedures for functioning of these committees shall be stipulated by internal regulations specific to each committee, drawn up by the relevant committee and approved by the Board.

On the present date, the Board has decided to establish the following permanent Committees: (i) an Audit, Risks and Compliance Committee and (ii) a Nomination, Compensation and Governance Committee.

Article 2 – Obligations of the members of the Supervisory Board

2.8 Each member of the Supervisory Board shall observe the applicable regulation on market abuse and insider information. He/she shall also declare to the Company, as soon as possible, any transaction executed on the Company's shares, pursuant to the applicable legal and regulatory provisions. These provisions shall form the object of an annual reminder to all Board members and of specific information in the event of significant changes.

2.9 Until he/she holds 1,000 shares, each member of the Supervisory Board shall use half of the amount of his/her attendance fees to acquire shares in the Company. On assuming their duties, the members of the Supervisory Board shall register the shares that they hold. The same shall apply for any subsequently acquired shares.
